

# I'm Jon Davies

CEO, Levy

---

Jon Davies joined Compass Group in 2014 and has served as CEO of Levy UK & Ireland since 2018. He leads the business across the UK and Europe, with responsibility for driving growth, client partnerships, and operational excellence across some of Europe's most iconic stadia, arenas and convention centres.

With a career rooted in hospitality, Jon combines a deep passion for food with a lifelong enthusiasm for sport and live experiences. He is focused on building Levy as a modern, high-performance hospitality business – delivering exceptional guest experiences, strong commercial results, and long-term partnerships with leading venue owners and rights holders.

A strong advocate for responsible business, Jon has prioritised sustainability, diversity and inclusion, and community impact as core pillars of Levy's strategy. Under his leadership, the business is investing in more sustainable supply chains, championing low-carbon food solutions, and creating a culture that encourages innovation, entrepreneurship and diverse talent.

Jon lives near the Peak District in Derbyshire with his wife Louise and their daughters (and one cat, tropical fish and chickens). A trained chef, he began his career working in kitchens while studying Politics at the University of York – an experience that sparked his enduring passion for the industry.
